

HANDOVER OF POSITIONS and INAUGURATION OF STUDENT CONSULTANCY ASSEMBLY (MPM) and STUDENT EXECUTIVE BOARD (BEM) UPN "VETERAN" JAKARTA

Friday, 26 June 2015 10:34 WIB

Thursday, June 25 2015 at the Gd. Rectorate Meeting Room. Gen. Sudirman Lt. II UPN "Veteran" Jakarta held the Handover of Positions and Inauguration of MPM and BEM UPN "Veteran" Jakarta. The event started at 13.00 WIB and was opened by singing the Mars Bela Negara song. The event was attended by the Chancellor, BPH, Warek II and III, the Deans, old and new MPM and BEM officials and other invitees.

In his remarks the Chancellor said that the MPM and BEM management at UPNVJ were selected students from each Faculty as students who were trusted to be able to set examples of various positive actions to other students whether they were outstanding, active, behaving and others. It is hoped that the administrators will be able to lead and run the program well and create a conducive campus environment. Being a leader is not easy, in fact it really requires hard work and mental readiness in carrying out social and organizational tasks. Therefore, students are expected to make a positive contribution to the campus environment and the community outside the campus who have strong discipline, good ethics and morals, are full of creativity and innovation, have broad national insights and a broad leadership spirit that is able to synergize *knowledge*, *skills* and *attitude* in the life of the nation and state. There are many benefits that can be felt by being an ormawa administrator, including that ormawa can be a place for channeling aspirations, hobbies, interests and talents, can foster a sense of togetherness and the formation of emotional intelligence. The hope that can be conveyed to the ormawa administrators is that they can work optimally with full discipline and responsibility who understand rights and obligations so as to create a stronger and more harmonious relationship between the ormawa administrators and the UPNVJ academic community. For this reason, a balance is also needed between the duties of an ormawa administrator and the main tasks as a student.

The Chancellor conveyed his gratitude to Oktariyanti Mustika, a 2011 FIKes student in the Nutrition Science Study Program as the General Chairperson of MPM and Tri Wijaya Sakti, an FE student in Management Study Program as Chair of the UPNVJ BEM-U and other administrators for their contributions while serving as former administrators at UPNVJ. In addition, the Chancellor also congratulated Marah Putra Cakra, a student of the FT Marine Engineering Study Program as Chair of the MPM and Achmad Faisal Hadi, a student of the FT Mechanical Engineering Study Program who had just been appointed so that he could carry out his duties and obligations according to his portion.

This event was accompanied by the release and embedding of Pins from the old administrators to the new administrators. Hopefully the new MPM and BEM UPNVJ management will carry out their duties and obligations and be accountable for their work program properly. Congratulations to the new Managers.
