

Against Climate Change, UPNVJ Supports the Energy Saving Movement

Sunday, 31 March 2019 01:40 WIB

UPNVJ Public Relations - In order to support the Depok City government program, namely the energy saving movement and anticipation of global climate change, UPN "Veteran" Jakarta participated in carrying out the *Global Ceremony Switch Off Earth Hour* campaign by turning off the lights for one hour simultaneously, on Saturday the 30th March 2019 from 20:30 - 21:30 WIB.

This activity is a step in protecting the environment and fighting climate change. The government's *Earth Hour* program also invites all people to be part of fighting climate change together with the aim of making the place we live in now better in the future.

The government hopes that with energy-saving activities like this, all elements of society can participate and support so that energy-saving behavior can be implemented in everyday life by using electricity wisely.

The energy saving movement that we do today is the determinant of what tomorrow will be like.
