

PT Aero Systems Indonesia Vacancies

Monday, 11 January 2016 11:28 WIB

Currently PT Aero Systems Indonesia is opening vacancies as follows:

Software Engineer (Java)

The minimum ability required is mastering the Java programming language and database operations. Later in the work you will use the Spring and Hibernate frameworks, please study them earlier so that you are better prepared later and can be an added value during the interview.

Vacancies are only open for one person, if interested please send your CV as soon as possible to fadhelfaturrahman@gmail.com or if you have further questions. If job applicants are accepted, they will be willing to be placed at the GMF Management Building, Soekarno-Hatta Airport, Cengkareng.

Export tanggal : Friday, 17 May 2024 Pukul 18:05:37 WIB.
