

# UPNVJ Medical Faculty Distributes PPE for the UPNVJ Medical Education Hospital

Tuesday, 09 June 2020 17:11 WIB

**HumasUPNVJ** - The Covid-19 pandemic in Indonesia has not ended today, health workers in various regions continue to strive to provide their best for the safety of many people. There's not much we can do other than helping medical personnel, namely doing activities #dirumahaja and also providing assistance with Personal Protective Equipment.

The UPN Veteran Jakarta Faculty of Medicine is again distributing PPE assistance provided by the Ministry of Education and Culture (Kemendikbud) to the UPNVJ FK Network Education Hospital, namely Friendship Hospital. (9/6/2020)

The amount of PPE data distributed by FK UPNVJ to Friendship Hospital is 217 pcs of non- reusable PPE, 50 pcs of reusable PPE, 1350 pcs of medical masks, 271 pairs of medical gloves, 71 pcs of Face Shields, 66 pcs of goggles.

UPNVJ FK hopes that by distributing this assistance, it is hoped that it can ease the burden on hospitals, especially the UPNVJ FK teaching hospital in providing PPE for medical personnel, considering that medical staff are all of our heroes at the forefront in tackling this pandemic.
