

International Conference on Health Development series 2 FIKES UPNVJ

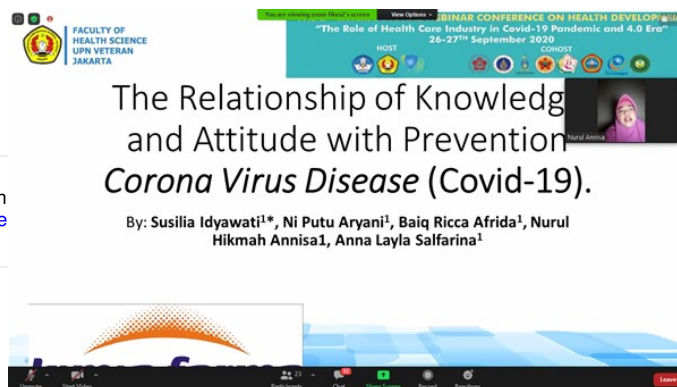

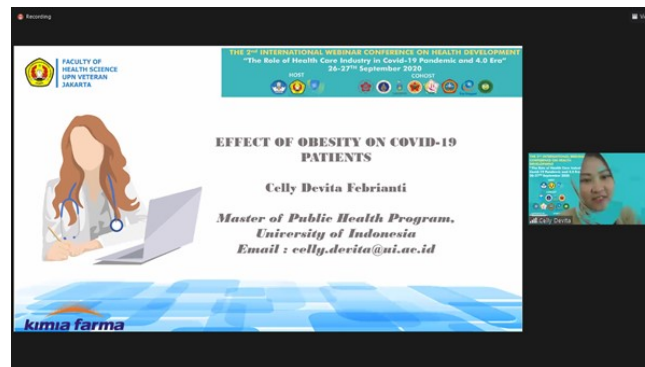

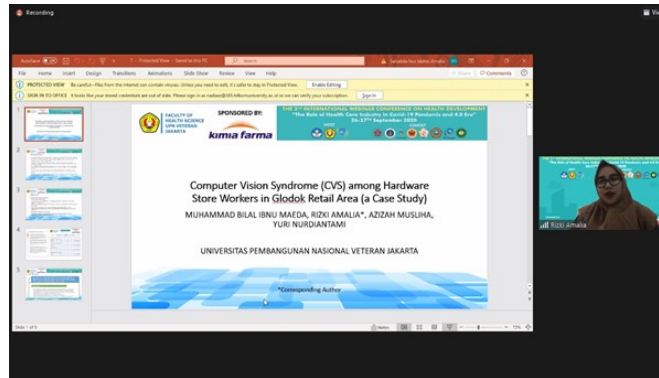

Monday, 28 September 2020 14:40 WIB

HumasUPNVJ - On Sunday, September 27 2020, the International Conference on Health Development series 2 took place with the theme "The Healthcare Sector Evolution in The Industry 4.0 Era " which was held by the Faculty of Health Sciences UPN Vetaran Jakarta. This activity is a continuation of series 1 which was held on Saturday, 26 September 2020. This online activity presented participants from various institutions in Indonesia with a total of 197 participants.

In this follow-up event, the participants presented the results of the research that had been carried out by the participants during *the new normal* period and collected 90 articles.

The International Conference on Health Development series 2 of the Faculty of Health Sciences UPN Veterans Jakarta 2020 is divided into 4 rooms. Each room is accompanied by a moderator and several people who become operators.
