

Strengthening National Defense Identity, UPNVJ Holds Cooperation Discussion Coordination Meeting with PKBN

Wednesday, 23 December 2020 17:22 WIB

HumasUPNVJ - In order to strengthen the identity of State Defense within the UPN Veterans Jakarta environment and to discuss cooperation, the Chancellor and his staff held a coordination meeting with the general chairman and members of the State Defense Cadre Activists (PKBN) located at Nusantara 1 UPNVJ while continuing to implement the health protocol, namely wearing a mask, wash your hands (bring your personal *hand sanitizer*) and keep your distance, Wednesday 12/23/2020.

This coordination meeting discussed the relation to state defense values that could be applied at UPNVJ, especially those related to its cadres, namely UPNVJ students from each faculty.

The Chancellor of UPNVJ has also directed how all teams, both from UPNVJ and PKBN, can collaborate together.

The UPNVJ Public Relations Team took the opportunity to conduct a direct interview with the general chairman of PKBN, Mila Tarsono, "We deliberately opened ourselves up as wide as possible from education circles, academics, non-academicians, practitioners and even the general public, because we accept anyone who wants to become a cadre. Our members are in all provinces in Indonesia, because according to what is stated in the law that every citizen has the right to defend his country, therefore we are open to working with anyone. The point is that we are moving to socialize, implement, not just talk, but actually strengthen the values of defending the country itself." Obviously

"This State Defense Cadre Activist is one of the fostered institutions of the Ministry of Defence. And coincidentally, UPNVJ is a state defense campus, so we hope that there will be beautiful, harmonious and collaborative collaborations that produce something real but still in line with the existing programs at UPNVJ." Mila continued

It's time for us to move and close our ranks to join in becoming State Defense Cadre Activists to jointly build this country and nation by implementing the values of defending the country in everyday life.
