

Dirbinmas Polda Metro Jaya Surprised Enthusiasm for Vaccination at UPNVJ High

Saturday, 31 July 2021 15:35 WIB

Badya Wijaya, SH, MH Director of Community Development Polda Metro Jaya Senior Commissioner of Police

HumasUPNVJ - Director of Community Development Polda Metro Jaya Senior Commissioner of Police Badya Wijaya, SH, MH admitted that he did not expect the enthusiasm of the community to take part in the vaccination held at the Jakarta Veterans National Development University.

"The community's enthusiasm is extraordinary. This indicates the importance of the vaccination program being understood by the public," said Badya while reviewing the vaccination activity held at UPNVJ's Pondok Labu Campus, South Jakarta, Saturday (31/7/20210).

UPNVJ held the Covid-19 vaccination in synergy with Polda Metro Jaya, Jakarta Indonesian Student Regiment Alumni Association (IARMI), and Jayakarta Student Regiment (Menwa).

Badya said the vaccination activity was an instruction from Polda Metro Jaya Chief Inspector General of Police Dr. Drs. H. Muhammad Fadil Imran, M.Si to help with the government's vaccination program.

According to Badya, Polda Metro Jaya has two vaccination programs, namely through static vaccination booths and mobile vaccination booths, which target 2,000 people.

"There are static vaccination outlets at Polda as well as every Polres and Polsek. As for mobile vaccination outlets, there are 10 units at Polda. In addition, there are also mobile vaccination outlets at Polres and Polsek," he explained.

Badya said the vaccination program would continue with the Merdeka Vaccination and he hoped that on 17 August 2021 all residents in DKI Jakarta would have been vaccinated.

Meanwhile, UPNVJ Chancellor Dr. Erna Hernawati, Ak, CPMA, CA, CGOP said the vaccination activity was a form of UPNVJ's support to the government in handling the Covid-19 pandemic.

"This vaccination is for the whole community. We hope that with this mass vaccination, people can get vaccinated quickly, thereby reducing the risk of being exposed to Covid-19," he said.
