

Do You Need to do an Antigen Test for Computer-Based Test in UPNVJ? Let's read the info!

Monday, 16 May 2022 13:11 WIB

The Joint Selection for State University Entrance (SBMPTN) is in sight. For the UTBK/SBMPTN Exam participants who will take the exam on the UPNVJ Campus, both Pondok Labu and Limo, of course, it is hoped that they have read all the requirements needed to carry out the exam. One of the requirements that must be considered is related to the implementation of health protocols to prevent Covid-19. Considering the location of where UTBK implemented is still vulnerable to the pandemic.

There are at least four conditions that must be obeyed by the examinees, the first is that the examinees are required to wear a medical mask. Second, the examinees have been vaccinated at least the first dose of vaccine. For test takers who have not vaccinated, they are required to bring the results of the antigen which are valid for 1x24 hours and show it to the committee. Third, the examinees have to check-in on the Peduli Lindungi application barcode at the central location of the UTBK UPN Veterans Jakarta. Finally, the committee will also take temperature measurements from the examinees. Participants allowed to take the exam must have a body temperature of 37.5°C.
