

LPPM Road Show: Chancellor Discusses 2022 Quality Assurance

Wednesday, 21 September 2022 10:26 WIB

HumasUPNVJ - In order to monitor the findings of the Internal Quality Audit (AMI) results for the 2021/2022 Academic Year, the Work Unit of LPPM UPN "Veteran" Jakarta, a Management Review Meeting (RTM) of each Faculty and Work Unit was held. In this regard, on Tuesday (20/9/2022) LP3M along with the Chancellor and Deputy Chancellor for Academic Affairs held an *Offline Road Show* specifically discussing the results of the LPPM AMI which took place in the LPPM Meeting Room.

Meetings are also held to ensure that the Determination, Implementation, Evaluation (Implementation), Control (Implementation), and Improvement (PPEPP) of LPPM Quality Assurance has gone according to plan.

LPPM is known to be preparing a *Roadmap* and Research Master Plan (RIP) as well as a Community Service Master Plan (RIPkM). Chancellor of UPN "Veteran" Jakarta, Prof. Erna Hernawati, when opening the meeting emphasized that these two things had to be prepared seriously. "... however RIP and RIPkM are not just a formality but must be prepared seriously because they are derived from research programs and PKM up to the level of lecturers." Erna insisted.

Erna also said that the evaluation that had been carried out required quite a lot of auditors, so they needed to be serious about monitoring what had been done by the work units that had been evaluated. LPPM also has the right to ask for the results periodically.
