HumasUPNVJ â€“ Since the beginning of nationalization in 2014 UPN Veteran Jakarta was determined and committed to always developing campus quality, especially in terms of student admissions. In the past, UPNVJ students did not reach 10,000, but this number will continue to increase until in 2022 there will be almost 14,000 students studying at UPNVJ. This is also the background to the need for UPNVJ to carry out further development in order to provide proper teaching and learning facilities for students.

One of the efforts made by UPNVJ to make this happen is by holding consultations as well as friendship with Mr. Rionald Silaban who is the Director General of State Assets (DJKN), Mr. Encep Sudarwan as Director of PKKN State Wealth Policy Formulation (PKKN), and the Indonesian Financial Management Agency (BPK RI) represented by Mr. Nur Hakim. This meeting was held on Tuesday (07/02) at the Indonesian Ministry of Finance.

The consultations carried out by university leaders were meant to provide UPNVJ with knowledge related to the inventory and completion of UPNVJ assets. On this occasion it is also hoped that UPNVJ will have the opportunity to obtain additional facilities and infrastructure for the development of the UPNVJ campus in order to support even better teaching and learning activities.
