

KEPK UPNVJ Holds a Webinar with a Discussion of Research Ethics Using Human Subjects in Multidisciplinary Sciences

Saturday, 11 March 2023 16:20 WIB

HumasUPNVJ - Researcher is an important element in conducting a research. The main task of researchers is to carry out scientific research that adheres to the values of integrity, honesty and fairness. In order for health research and development to run well, a researcher should understand the insights of scientific thinking and ethical thinking regarding the topics and types of research that are of interest to him. As an ethical researcher, you must not only respect human willingness and sacrifice, but also respect and protect the life, health, *privacy* and *dignity* of the research subject. Experimental animals must also be handled in a 'civilized' (*humane*) manner so that their suffering is reduced as far as possible. The research in question apart from fulfilling the requirements of scientific excellence and in accordance with the Helsinki Declaration as well as fulfilling the principles of *Good Clinical Practice* (GCP), namely upholding the respect, dignity and human rights.

All research involving humans must go through an ethical clearance process. Ethical clearance is an instrument for measuring the ethical acceptability of a series of research processes so that all research involving humans or animals may not violate ethical standards that apply universally but must also pay attention to various socio-cultural aspects of the community being studied. Ethics Clearance guarantees to maximize the benefits of research, and can help researchers avoid mistakes and misuse of research and scientific publications that lead to violations of the Researcher's Code of Ethics. Therefore, the UPN "Veteran" Jakarta Research Ethics Commission held a Webinar Activity with the theme "**Research Ethics Using Human Subjects in Multidisciplinary Sciences**".

The purpose of this activity is to increase the competence of researchers in writing research protocols according to good research protocol standards in research in science and technology, and social and humanities, as well as to improve the quality of research protocols according to research ethical principles. This activity was held on Saturday, March 11, 2023 *online* and was attended by Lecturers, Researchers, UPNVJ Students.

The event was opened by the Vice Chancellor for Academic Affairs Mr. Dr. Drs. R. Dudy Heryadi, M.Sc. said that: Research ethics is becoming more and more important, the more people are aware of it, the more we come here, the more aware we need it so that what we do in research especially does not violate the norms of applicable ethical rules. Hopefully, by holding this seminar, the awareness of the lecturers of the academic community at UPN Veteran Jakarta will increase.

This webinar presents 3 different sources from all angles, Dra Rachmalina Soerachman, M.Sc.PH said that: That research ethics is very important which includes principles where there are moral *values* where in a research there are signs, especially research which includes humans as subjects especially when it comes to health there must be norms, as students we must follow and comply with our professionalism related to our integrity as researchers.

2nd resource person: dr. Harnawan Rizky, S.Sc., MOHRE delivered Material on Research Ethical Considerations in Multidisciplinary Sciences so we will focus on the Protection of Human Participants. 3rd resource person: Fahmi Fu'adi, S.Ikom conveyed: Material related to the steps taken when wanting to submit the research protocol on the KEPK UPNVJ *website* , namely on the website page:www.kepk.upnvj.ac.id

WEBINAR

"Etika Penelitian Menggunakan Subjek Manusia pada Multidisiplin Ilmu"

Hamawan Rizky, S.Si., MOHRE
FERCAP
(Forum for Ethics Review Committees in Asia and Western Pacific Region)

Dra. Rachmalina Soerachman, M.Sc.PH
Wakil Ketua Komisi Kesehatan
Badan Riset dan Inovasi Nasional (BRIN)

Fahmi Fu'adi, S. Kom
TUTOR IT
PT. Inovasi Kreatif Lab (ICraft)

SABTU | 08.00 - 12.00 WIB | 11 MARET 2023 |  ZOOM

PARTISIPAN : PENELITI/DOSEN/MAHASISWA

Kontribusi Peserta :

FREE UNTUK DOSEN DAN MAHASISWA UPN "VETERAN" JAKARTA
Umum Rp. 300.000 | Dosen Luar UPNVJ Rp. 250.000 | Mahasiswa Luar UPNVJ Rp. 250.000
