The UPNVJ Public Relations Team took the opportunity to conduct an *online* interview with representatives of students who excelled in this championship, namely Vaganti Sukma Safa Rubianti. In his statement, Vaganti explained in *detail* the preparations he and the Taveja team had for taking part in the **Taekwondo Everest Championship 2 – 2023** , "Our goal from UKM TAVEJA in participating in this championship is none other than wanting to make the name of our alma mater, UPN Veteran Jakarta, proud. Apart from that, taking part in this championship is already in the Proker of the Head of UKM Taveja himself, who takes part in several championships in one period. "This Taekwondo Championship is at the same level as the National Championship, where there are 17 universities taking part in the Championship, then there are Taekwondo Clubs from various cities in Indonesia," concluded Vaganti.

"In participating in this championship, of course the preparations from UKM TAVEJA friends themselves were quite thorough, which took approximately 2 months and the training was already structured by our coach, where in one week we practiced 6x, our goal of structured training like that was of course to get good results. the best during the championship. Of course, in preparation for this championship, there are things called ups and downs, which in our opinion, the joy is that maybe every day we can get to know each other more and more between UKM TAVEJA members and get closer between the members, not only that, even though we practice almost every day and it is very hard and tiring, but If you gather with other TAVEJA members, the exercise doesn't feel difficult because we do it together. "Then of course in this preparation there is something called sadness, perhaps in this case the sadness is that during the preparation for the championship there were several members of TAVEJA themselves who were sick, where during training the weather was sometimes unpredictable and caused the body's immune system to drop," he continued.

"We hope that in the future after participating in this championship, we can provide even better results in the next championship and our message to other friends, especially to our comrades in arms at UKM TAVEJA itself, thank you for wanting to join us in fighting and working hard. to give the best to UPN Veteran Jakarta and the name of UKM TAVEJA itself, not only that, we are also very grateful to our trainers, both trainers from Kyourugi or Poomsae who have taken the time to train us for 2 months, and always provide advice and directions to us to give the best for sure," concluded Vaganti full of hope and ambition to represent his comrades in arms.
