

# Student SNPMB Account Registration Extended until February 19 2024

Friday, 16 February 2024 17:20 WIB

Registration and Permanent Saving of SNPMB 2024 accounts for students in both grade 12 and gap year students (graduates in 2023 and 2022) has been extended until Monday, February 19 2024 at 15.00 WIB. This extension was immediately announced from the official SNPMB website and stated in Press Release No. 02/sipers/snpmb/II/2024, namely regarding Providing Registration Opportunities and Permanent SNPMB Accounts for Students.

This step is the last opportunity for prospective Indonesian new students (camaba). Moreover, it is important to remember that all prospective SNBP and/or SNBT participants are required to have an SNPMB account that has been kept permanently.

"Based on the evaluation of SNPMB account registration and permanence up to February 14 2024, it was found that there were obstacles for students who had not succeeded in permanent accounts and for gap year students who had not been able to register accounts because they had to go through the graduate verification process," wrote the SNPMB team in Thursday's announcement ( 2/15/2024)."

This causes these students to be unable to register for National Selection Based on Achievement (SNBP) or National Selection Based on Tests (SNBT).

To give students the opportunity to register for SNBP and SNBT 2024, students who have not yet registered an account and a permanent account are given the opportunity to complete the stages of creating an account to permanently saving an SNPMB account with the following conditions: 1. Submitting a graduate verification at Pusdatin (<https://pd.data.kemdikbud.go.id/verval-lulusan>) closes on February 15 2024, at 15.00 WIB. 2. Registration and permanent SNPMB accounts for SNBP and SNBT registrant students closes on February 19 2024, at 15.00 WIB. (Ark)
