The Chancellor of UPNVJ, Anter Venus, explained that this activity is a big activity that has many benefits, "This activity is extraordinary, the output is great for both vocational and postgraduate education, including aligning the vocational education curriculum with the needs of the business world and the industrial world. Increasing the competence and professionalism of vocational education lecturers. Building closer cooperation between vocational education institutions and the business and industrial world. Providing a platform for the exchange of ideas, experiences and best practices in managing lecturers and vocational education curricula, specifically for vocations. Apart from that, there are also many benefits for postgraduates, increasing understanding regarding lecturer management and the postgraduate education curriculum in accordance with Permendikbud 53/2023. Increasing the competitiveness of postgraduate graduates through a relevant curriculum and high lecturer competency. Facilitate easy access to postgraduate programs for practitioner and industry lecturers. "Encouraging the sustainable career development of lecturers," he explained

Chairman of the State University Cooperation Agency - Western Indonesia Region, Professor Dr. Muryanto Amin, S.Sos, M.Si in his speech also thanked UPNVJ as the organizer because the event ran smoothly.

The sub-topics discussed in this activity are, Optimizing Lecturer Management and Vocational Education Curriculum through Synergy with the Business and Industrial Worlds, Increasing Postgraduate Competitiveness and Competence through Optimal Lecturer Management and Adaptive Curriculum Based on Permendikbud 53/2023.
