 - Pertanyaan Literasi
 - Kode Referral, isi Kode Sales dengan: U4
 - **Deposit Awal, isi dengan Tunai dan Rp0 (TIDAK ADA DEPOSIT SAMA SEKALI)**

The National Development University "Veteran" Jakarta, through the Introduction to New Student Campus Life program, will try to set a MURI Record through collaboration with Kiwoom Sekuritas Indonesia and the Indonesian Stock Exchange (IDX).

The aim of the MURI Record is an effort to provide practical understanding of the world of investment to new students. This initiative aims to instill the importance of financial literacy from an early age and encourage students' active participation in the Indonesian capital market.

UPNVJ hopes to set a MURI record for opening the most investment accounts in one time, an achievement that will be a source of pride not only for the university, but also for all participants involved.

In its implementation, approximately 4,000 UPNVJ new students will be asked to open the most investment accounts at one time.

This program is designed to provide new students with practical experience in the world of investment and finance, with the aim of increasing financial literacy and encouraging financial independence among the younger generation. Thousands of new UPNVJ students participated in opening this investment account, showing their enthusiasm and commitment to the importance of investing for the future.

In the initial stage, students are asked to open the link <https://bit.ly/m/INFO-PATRIBERA-2024> and are directed to open the "MABA Assignments" menu, which contains a complete explanation of all assignments and procedures including creating a Kiwoom Sekuritas account.

VIDHA ANTABOGA PATRIBERA

9. Isi kolom **Pernyataan Tambahan BCA**

- Tekan **Lanjut**

On the MABA Assignment Menu, there is a section for individual student assignments in "Assignment 4" which directs students to open a Kiwoom Sekuritas Indonesia by IDX account.

In this task stage there is a link bit.ly/BriefBukaakunKiwoomSekuritas which explains the procedures for creating an account free of charge or free.

If you look at the current process, there is a misunderstanding from new students who say that there is a fee of IDR 1,000,000. In reality, there is no initial deposit payment because the MURI Record only requires creating an account with a fee of IDR 0.-.
