

# Establishing Cooperation, FK UPNVJ and MN KAHMI Hold 2024 National Defense Webinar

Wednesday, 21 August 2024 15:47 WIB

**HumasUPNVJ** - The COVID-19 pandemic has shown how vulnerable countries around the world are to sudden and widespread global health threats. This pandemic not only threatens public health, but also has a major impact on various aspects of state resilience, including economic stability, national security, and social and psychological well-being of the community. This crisis shows the urgent need for better response strategies and more resilient health systems.

Successful pandemic response requires a holistic and coordinated approach, encompassing threat anticipation, impact projection, and rapid and effective response. Good anticipation enables countries to better prepare for potential outbreaks, while projections and predictive models aid in timely and data-driven decision-making.

In addition, the pandemic has also emphasized the importance of cross-sector collaboration, including between the government, private sector, non-governmental organizations, and the general public. This collaboration is essential to ensure efficient distribution of resources, effective communication, and alignment of response efforts at all levels. In line with this, the Faculty of Medicine of UPN "Veteran" Jakarta in collaboration with the Public Health Pandemic Response Division of MN KAHMI held a webinar discussing "Pandemic Response: Anticipation and Projections for State Resilience".

dr. Taufik Fredrik Pasiak, Dean of FK UPNVJ said that this activity aims to provide in-depth insights and share knowledge about anticipatory and projection strategies that can be applied to strengthen state resilience.

Also present was the Chancellor of UPNVJ, Anter Venus to be one of the speakers at the seminar session discussing National Resilience and National Defense for Education. In addition to the Chancellor, FK UPNVJ and MN KAHMI also presented Dr. Ir. HE Herman Khaeron, M.Si as the Coordinator of the President of MN KAHMI, Secretary General of MN KAHMI, Syamsul Qomar. Dr. Drs. Amran, who discussed "Planning, Risk Assessment and Evaluation of the Regional Implementation System related to Pandemic Projections and Anticipation." Dr. Sumarjaya, SKM, MM, MFP, CFA (Health Crisis Center of the Ministry of Health: "Projection and Anticipation of Health Pandemics in Indonesia." Major General TNI dr. Sukirman, Sp.KK., M.Kes., FINSADV., FAADV (Head of the Army Health Center), represented by Brigadier General TNI dr. Djanuar Fitriadi who discussed "State Resilience in the context of health for projection and anticipation of pandemics. Dean of the FK UPNVJ, Dr.dr.Taufiq Fredrik Pasiak, M.Kes., M.Pd.I., MH. (Dean of the FK UPNVJ/Head of the Field of Pandemic Management and Health Improvement MN KAHMI): "Introduction to Matra Health Sciences for State Resilience in the Medical Field."

The Head of the UPNVJ National Defense Webinar Committee, dr. Taupan Ikhsan, in his report explained that the participants who attended came from various groups, including lecturers, education staff, students and the outside community who joined online (*zoom platform*) and offline at the Auditorium of the Auditorium Room dr. Mulyono Soedirman, 3rd floor, Wahidin Sudirohusodo Building, FK UPNVJ.

Through discussions involving experts from various fields, it is hoped that a comprehensive approach can be formulated that is not only effective in dealing with the current pandemic, but also in preparing the country to face global health threats in the future.
