

Coming from Sukabumi, UPNVJ Public Relations Receives Visit from SMAIT Adzkia Students

Thursday, 14 November 2024 13:34 WIB

HumasUPNVJ - Universitas Pembangunan Nasional "Veteran" Jakarta (UPNVJ) yesterday, Wednesday, September 12, 2024 received a visit from students of SMA Islam Terpadu Adzkia Sukabumi, in the context of learning activities and introduction to the campus world. This activity was held at the Diplomacy Lab of the Faculty of Social and Political Sciences, UPNVJ.

The visit aimed to provide students with a first-hand overview of campus life, available facilities, and higher education opportunities at the state defense campus, UPNVJ. A total of 80 students accompanied by teachers and staff of SMAIT Adzkia were seen enthusiastically participating in a series of events that had been prepared by the university.

The event began with a warm welcome from the Coordinator of New Student Admissions (Penmaru) UPNVJ, Fajar Nugroho who on that occasion conveyed the importance of introducing the world of higher education to students from an early age. "We hope that with this visit, students can gain broader insight into higher education, especially at UPNVJ and better prepare themselves to continue their education to a higher level," said Fajar

Next, students were given the opportunity to attend presentations on various study programs by Disa Prihantini and the UPNVJ Public Relations team including scholarship opportunities, student activities, tuition fees, UPNVJ's advantages and campus facilities that support the learning process. Several active students also shared their experiences about campus life at UPNVJ, providing an overview of daily life on campus.

One of SMAIT Adzkia's students, Daffa, said that this visit was very useful to help him and his friends in choosing the right university in the future. "I know more about the study programs here, and how to choose a major that suits our interests and talents," he said.

In closing, students were invited to tour the campus facilities, such as the library, laboratories, and lecture rooms that support academic activities. This visit is expected to inspire students to plan their next steps in continuing their education to university level.

With activities like this, UPNVJ hopes to be closer to the community, especially prospective new students, and provide useful information for the younger generation in choosing an educational path that suits their interests and potential. (*s)
