HISTORY

Starting from around 1980s, the Christian Student Fellowship experienced many challenges and obstacles during its early years of worship. The challenges and obstacles at that time were about finding a location to do worship service. At that time, the campus did not provide a permanent place for the Christian Student Fellowship to carry out their worship service. Worship activities were also held in various places, including: worshipping together near the campus, at one of the students' home alternately, and at the GPIB church in Ambalun. AGAPE officially became one of the student activity units in 1982. Later in 1989, Christian Alumni Fellowship was established for those who have graduated and the two fellowships still maintain their relationship to this day.
